New Equipment Report:
28' AFC Quadraft Spray Booth is Approved and Operational
April 4, 2011

The newly acquired AFC QUADRAFT spray booth at TFX is completely installed, approved by the City of Oxnard and fully operational.

The booth has an interior dimension of 28-feet long x 16-feet wide x 16-feet high and the capacity to completely cycle the interior air over six times per minute. It also features a special mixing room, "clean entry" room, and temperature control of over 160° F.

"After an extended installation and permitting process, the time for completion of this project is just right, because we have several projects in-house that require special finishes and coatings, including a significant amount of models requiring
