**Sportfishing Weekend:**  
**TFX Employee Appreciation and Team-Building Exercise**  
September 26, 2011

Over the weekend of September 23-25, the TFX workforce was 140 miles off the coast of northern Baja California, sportfishing aboard the Pacific Queen.

Team TFX caught plenty of Ahi tuna and yellowtail. Some of that catch was expertly turned into a sushi lunch, complete with wasabi and hand-made California rolls, by company president Allen Pike. (Who knew)? Fabrications manager Dustin Bell landed the team's biggest fish, a 20-pound Yellowfin tuna.

"This event was in appreciation of everyone's hard work on recent projects," said TFX President and CEO Allen Pike. "And it was also a great opportunity for team-building, by providing opportunities to have fun and work together in a different environment."

The Pacific Queen is an 88' charter that operates out of San Diego, California.
